

Sponsored by:

Speaker: Keith R Martin, MD

Date/Time: 11/6/2025 8:00:00 AM

Location Byer's Eye Institute

Title: Future Vision: from Discovery Research to Clinical Trials in
Ophthalmology

Learning Objectives

After participating in this regularly scheduled series, participants should be able to:

- 1 Understand the evolving role of gene and cell therapies in treating retinal and optic nerve diseases. Participants will be able to describe how recent advances in gene therapy and cellular reprogramming are transforming treatment paradigms for inherited retinal diseases, macular degeneration, and glaucoma.
- 2 Recognise the key translational challenges in moving ophthalmic neuroprotection and regeneration strategies from bench to bedside. Attendees will gain insight into experimental models, outcome measures, and trial design considerations relevant to emerging neuroprotective and regenerative interventions.

Accreditation

In support of improving patient care, Stanford Medicine is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Credit Designation

American Medical Association (AMA)

Stanford Medicine designates this live activity for a maximum of 1.00 *AMA PRA Category 1 Credits*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Accessibility Statement

Stanford University School of Medicine is committed to ensuring that its programs, services, goods and facilities are accessible to individuals with disabilities as specified under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Amendments Act of 2008. If you have needs that require special accommodations, including dietary concerns, please contact the Departmental RSS
